LILA: 096-373-5786

- If you find a fire**
1. Shout "Fire!!" loudly, get help from neighbors
 2. Fire alarm button → 119 → Initial fire control → Evacuate quickly → Emergency broadcast on 1st floor and email all-imeg

1. Shout "Fire!!" loudly, get help from neighbors

**Dial
119**

Initial fire control 1
Extinguishers are placed near the lounges and the east-side elevator

Powder
Use this basically

CO2
Only for equipment or machinery
Danger! Suffocation in closed spaces

Initial fire control 2

Fire hydrants are near the east-side emergency exits and the men's lavatories

Water can flow out easily and quickly

If frame spreads, evacuate quickly

Use west-side stairways to evacuate

When the fire door is closed, press it with your hands to open the door

The door of west-side veranda
If you break the cover and turn the lever clockwise to unlock, you can go to the veranda. But you can not get down

Extinguishing completed

Emergency broadcast

You can use the microphone in the front of the management room on the 1st floor

**Email for all IMEG members:
all-imeg@kmm.kumamoto-u.ac.jp**

Use east-side stairways to evacuate

Remove the cover

Turn the lever clockwise to unlock

Go down the emergency stairs

When you get down to the 1st floor, unlock the door and go outside
